SANDY LAKE

REHABILITATION & CARE CENTER

**WEEKLY UPDATE**

**JUNE 3, 2021**

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 74 residents and 43 staff members test positive for COVID-19. Currently we have had 69 residents and 43 staff members recover. Dallas County infection rate for COVID dropped to 3.4%. Please continue your safe distancing and proper handwashing and keep yourself and your loved ones safe. If interested, see the front desk for a copy of the new visitation rules.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19 and we will continue to screen visitors and staff for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We also ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at 972-462-6600.

Sincerely,

*Mark Johnston*
